

## Log 16,000 Datapoints

These well-made units have exceptional accuracy for thermocouple thermometers, fast response times, high 0.1°C/F resolution (-200 to 800°C), and wide measurement ranges. Features include min/max, relative temperature, auto power off, and hold functions. Meters have large, easy-to-read 3½" LCD, and accept standard thermocouple probes.

Automatically records and stores up to 16,000 data points in the field, which can later be downloaded to your computer. An adjustment allows the user to easily calibrate this meter and probe to ice point or any other standard. Comes ready to use with carrying cases, software and USB cable, beaded wire probe, and a 9V battery. Can also be used with optional AC Adapter 800003. N.I.S.T. traceable Certificate of Compliance available.

DIM: 7¼" × 2½" × 1¼" (184 × 64 × 32 mm). WEIGHT: 7.4 oz (210 g).
